SSC East Not Part of SSC Racing Sale Offering
*Eastern U.S. Master Distributor to Remains Part of RJV Enterprises
Despite Erroneous Listing*

Braintree, MA, July 5, 2006 – SSC East, the exclusive importer and distributor of karts, engines, kart racing supplies for the Eastern United States, announces that it is not part of the holdings that KARBZ Inc. (d.b.a. SSC Racing) has put up for sale. SSC East is wholly owned by RJV Enterprises and has no role in the offering.

“We’ve received some calls from our network of dealers who were confused by a posting on a web site that lists businesses from sale in California,” stated Richard J. Valentine, owner of RJV Enterprises. “I want to reiterate that SSC East has no connection to SSC Racing, we’re not part of any sale. It’s business as usual for us – we have plenty of inventory in stock and ready for delivery – and we remain dedicated to serving the needs for kart dealerships throughout the Eastern United States.”

Last year, RJV Enterprises purchased SSC East from SSC Racing and has successfully grown its’ dealer network to over 50 dealerships. The confusion arose when KARBZ business broker posted incorrect information on a web site listing of the offering.

SSC East, located in Braintree, Massachusetts, is the direct importer in the eastern half of the United States for the world’s leading kart products including

Rotax/Bombardier, CRG chassis, Zanardi, MoGo and GearBox product lines, to both kart dealers and racers. Exclusively focused on kart racing, SSC East is dedicated to importing, selling, servicing and supporting kart manufacturers, it is the largest distributor of karts, engines and kart racing supplies and race organization in Eastern United States.
